RADevo

Retrieval practice and homework for Computer Science, IT, Business and Economics

Quizzes for every topic of your exam board's specification, set as homework in a couple of clicks, run as Do Now starters or live quizzes, with long exam answers your team marks in one place.

Marking a long answer beside the mark scheme

Streak Mode: wrong answers come back until they're right

What your department gets

Homework that sets itself up

Pick a topic and a class, set a date. RADevo tracks who's done it and when, and you can nudge anyone who hasn't.

Starters and live quizzes

Do Now starters and live class quizzes with game modes, on the board and on students' iPads or laptops.

Long exam answers

6-markers to 25-mark essays. Mark beside the mark scheme, tag AOs, and the comment writes itself. Whole-class feedback and DIRT in one click.

Spaced practice built in

Wrong answers come back 1, 3 and 7 days later in Revise today, so students get more practice on what they got wrong.

See the gaps

Knowledge Profiles show each student's topics as Strong, Secure or Developing. AI class reports suggest what to reteach.

Students keep coming back

Streaks, badges, avatars and a class league. Reading support for students who need it.

Courses

Computer Science and IT: OCR, AQA, Pearson Edexcel and WJEC Eduqas GCSE and A Level; Cambridge Nationals IT and Creative iMedia; BTEC Tech Award and National IT; KS2 and KS3.
Business and Economics: OCR, AQA and Pearson Edexcel GCSE and A Level; Cambridge Nationals Enterprise and Marketing; BTEC Tech Award Enterprise.

Simple pricing, per school, per year

Unlimited students on every plan. No per-student fees.

Basic

£199

Homework, starters, live quizzes and tracking. Up to 3 teachers, 1 course. No AI.

AI Analysis

£349

Everything in Basic, plus AI class reports (30 a month). Unlimited teachers, 3 courses.

AI Creation

£599

AI reports (50 a month) and AI-written quizzes (30 a month). Unlimited teachers and courses.

Whole School

Get in touch

Several departments, a whole school or a trust. Price agreed with you.

Coursework check add-on: £99 a year (up to 50 students a month). Invoiced to the school; purchase orders accepted. No VAT is added. MAT discount: schools in the same multi-academy trust joining together get 15% off each for 3–4 schools, 25% off for 5 or more. Prices correct at November 2026.

Data and safety

- Data stored in the UK (London), encrypted
- Sign in with school Google or Microsoft accounts. No passwords held
- Each school's data kept apart
- Students never chat with an AI; no student names go to it
- Data Processing Agreement for every school
- No adverts, no selling data, no tracking cookies

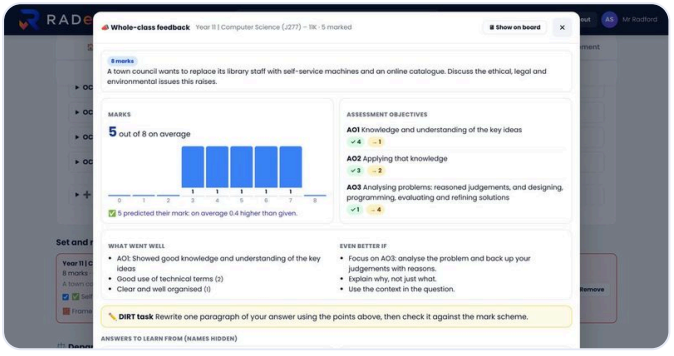

Details: radevo.co.uk/data-and-safety

Getting started

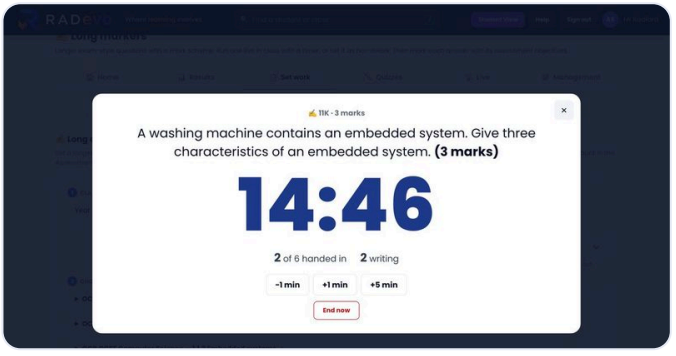

- **Nothing to install.** Works in the browser on laptops, Chromebooks and iPads
- **IT does one thing:** allow RADevo for student sign-in (a few minutes)
- **Students join** with a class code or QR code
- **2-week free trial** of any plan, no card needed. Nothing to cancel

Why retrieval practice

Testing yourself beats re-reading. Students who tested themselves remembered about a third more a week later (Roediger and Karpicke, 2006). A review of 118 studies found practice tests helped secondary students most (Adesope and others, 2017). RADevo puts that into every homework and starter.

Whole-class feedback built from your marking

A long question live in class with a timer
